SCHOOL DISTRICT OF STURGEON BAY
ANCHORED IN EXCELLENCE

Student Use of Media Resources

Sturgeon Bay School District uses a variety of media resources to support the educational experience. Some of these resources require students to log in, thus providing Personally Identifiable Information such as first and last name and school email address. Please be aware that these resources are vetted by a team of school district reviewers to carefully identify those with terms of use and privacy policies that protect the students' data. Those resources that do not protect student data or provide substantial educational value are not approved for use in classrooms.

As these online resources are an important part of classroom instruction, permission of parent/guardian is requested for their use. These resources may include, *but are not limited to*:

- EdPuzzle
- Khan Academy
- My Net Diary
- Canva
- No Red Ink
- Artsonia
- Formative
- Desmos
- Code.org
- PBS Learning Media
- Flip
- Prodigy

If you would like more information about any of these resources, you can go to their site and look for links like Terms of Use and Privacy Policy. If you have any concerns about any of these sites or about the use of media resources in general, please reach out to your building principal or the Director of Teaching, Learning, & Technology. **If you would like to opt out of your student's use of any of these resources, please notify their building**

principal in writing. You will need to opt out each school year for any resource from which you withdraw permission.
